Why ISMB/ECCB 2007?

ISMB/ECCB 2007 will be held in Vienna, Austria and is jointly hosted by the International Society for Computational Biology (ISCB) and the European Conference on Computational Biology (ECCB). The conference will serve as the 15th Annual Meeting of ISCB and the 6th Annual Meeting of ECCB.

Considered by many past sponsors as the premier life sciences conference to attend ISMB/ECCB 2007 provides a multidisciplinary forum for disseminating the latest developments in bioinformatics. Bringing together over 2000 international scientists from the fields of computer science, molecular biology, molecular medicine, mathematics, and statistics the conference will focus on the development and application of advanced computational methods for biological problems.

Offering the strongest scientific program and the broadest scope of any international bioinformatics conference, ISMB/ECCB 2007 will be the largest and most important computational biology event globally in 2007.

The conference provides one of the best opportunities to showcase tools, technologies and other products and services to an international audience, including serious buyers and key decision makers.

To take advantage of the many opportunities available to develop and expand your organization's interface to the bioinformatics community, contact Steven Leard at steven@iscb.org

Conference Sponsorship Benefits

Premier Sponsorship

ISCB offers interested organizations specialized opportunities designed exclusively for Premier Sponsors of ISMB/ECCB 2007. Premier sponsor benefits include ISCB and conference customized packages designed to meet the organization's specific marketing strategy.

To discuss a Premier Sponsorship opportunity, contact steven@iscb.org.

"HP has long held the view that ISMB is the most important conference of its kind and has consistently supported the event over the years. HP believes ISMB conferences provide the best opportunity to meet with the thought leaders in the fields of bioinformatics and molecular biology and will continue to support future ISMB events."

— Lionel Binns, Manager, Life Science Program Office, High Performance Computing, Hewlett-Packard Company
