ISMB/ECCB 2007 Special Sessions Proposal (max. 4 pages total)

Title: (please provide a short informative title here of max. 20 words - the title must be attractive and should make a reader curious.)

Topic Area (about 1 page): Please describe the area, its relevance for the ISMB/ECCB community and the reasons why you think there should be a session on this area at the ISMB/ECCB 2007 conference. Indicators of relevance can include
- Timeliness
- Emergent technology, emergent datascape
- Methodologies applied to a large number of bioinformatics problems.

Organizer: (the professional experience of this person will be critical in the selection process)
- Title (Mr/Ms/Dr/Prof/other)
- Full name
- Affiliation
- Mailing Address
- Email address
- Telephone number – work and cell if available, with country and city codes
- Fax number
- Home page URL
- Qualification to organize this session (up to ½ page)

List of topics: Please provide a list of potential presentation topics to be given at this session, each with a title and an abstract

Possible speakers: Please name speakers you are targeting, and indicate whether they have consented already.

Submitting your Special Sessions Track proposal:
Please save the template file using the last name of the first presenter. If the first presenter is John Doe, then save to "**doe.doc**" or "**doe.pdf**" and email the file to
mailto:sessions07@ismbconf.org
